WELCOME MESSAGE FROM ORGANIZATION

Dear All,

United Scientific Group a non-profit organization takes the honor to invite you to the **Third International Conference on Carbon Chemistry and Materials (CCM-2023)** which will be held on **October 23-25, 2023 at Paris, France.**

CCM-2023 hosts important gathering and foster connections which will bring together world leading researchers in the field of Carbon Chemistry and Materials (Nano). It is a forum where academia and business intersect to spark development and showcase latest research and technological developments in Carbon Chemistry and Materials of different fields for global requirements.

It is a three-day event which features academicians, Industrialists, and business executives to showcase recent trends, strategies, and challenges of Carbon Chemistry. **CCM-2023** program is an assemblage of inspirational Plenary and keynote addresses, top-notch educational sessions, interactive panels, and networking events. We believe **CCM-2023** is an opportunity to network with peers and take real ideas to implement at your respective organizations.

About the Organizer:

United Scientific Group (USG) a non-profit organization is an expert-driven initiative with a vision to:

- « Identify and bridge gaps in knowledge by creating and implementing new scientific and technology-specific platforms, forums and products to discuss bottleneck issues and incorporate recent research advances.
- « Publish and promulgate innovative research findings with an ethical and stringent review process to make a step-change in the fields of science and technology.
- « Partner business and science for the translation of scientific discoveries and innovative ideas into implementable solutions and products which benefit mankind. The USG team is committed to work together to create network which delivers the best scientific solutions and contributes top services to the scientific community. Join with us at Paris, France! Networking Unique networking opportunity across worldwide where the world's leading renewable CEOs, business heads, decision, and policy makers, choose to present their latest innovations.

Scientific Sessions:

- « Nanocarbon; Graphene, Nanotube, Fullerene
- « Electrochemistry and Applications
- « Adsorption, Reactivity and Catalysis
- « Quantum Chemistry
- « Carbonization and Graphitization
- « Environmental Applications
- « Biological and Medical Applications
- « Carbon Fibres and Composites
- « Physical Properties & Characterization
- « Cokes, Coals and Carbon Blacks
- « Carbon alloys & their applications
- « Hydrocarbons & Biofuels
- « Nanomaterials and Nanotechnology
- « Materials Science and Engineering
- « Low-Dimensional and 2D materials
- « Nanoscale Carbons
- « 3D Printed Materials
- « Green Chemistry & Synthetic chemistry
- « Trends in Nanotechnology
- « Technological advancement in Organic Synthesis
- « Nano Chemistry
- « Carbon Energy
- « Inorganic and Organic Chemistry
- « Industrial Nanotechnology
- « Reaction Chemistry and Engineering
- « Nanoscience and Materials Chemistry
- « Nanoengineering and its Applications
- « Nano-electronics and Nano-electronic Devices
- « Physics and Chemistry of Materials
- « Industrial and Polymer Chemistry

SPONSORSHIP:

Support the event and take the advantage of getting connected with your target audience!

The United Scientific Group (USG) organizes interdisciplinary international conferences to show case on cutting edge basic and applied research outcomes within engineering, life sciences including chemistry and other diverse role of science and technology in society.

CCM-2023 three-day conference will give attendees a chance to interact, learn, and engage with the business industry's foremost researchers, while tackling the pressing issues that face the new generation. Participants will be top level representatives from sectors like prominent commercial; regulatory; scientific organizations and academic institutes.

USG offers several opportunities for sponsors to demonstrate their support towards science and its people by providing financial contributions to facilitate the presentations of noble research findings, and other necessary management for the scientific gathering.
